11) Reports invited to
the letter dated 23/6/87
the C-E for description bringing
to the notice of Govt the present
condition of the engine of the Waterworks
installation at Kanara & the
urgency for installing a new
oil engine in order to provide
the water supply in Kinnaur
— to consider the installation

with a continuous supply of water

It was stated that, as a measure of safety, a Reserve oil engine has been installed as a temporary measure at a cost of Rs 8000 pending receipt of funds from the Govt. This may be approved, provided the Municipality charges on question

12 The C E for sanction requests that the estimate for Rs 47257 for the purchase of a new diesel oil Engine may be sanctioned, the entire expn being met by the Govt. The Municipality has no funds to meet any portion of this expn Hence the estimate may be sanctioned for the entire amount Rs 47257 Sanctioned as a grant to the Municipality out of the water supply grants for 1947-48, as recommended by the D.C Hassan vide Proceedings dated 6/9/47 Rec 2697

13 In view of the difficult financial position of the municipality the entire cost of the estimate amounting to Rs 47257/- —

will have to be met, as a grant to the Municipality from out of the Water Supply Grant for 1947-48 as proposed above

(4) Such sanction is considered to be urgently necessary as the breakdown of the present oil Engine in Kanamur Water Works is considered to occur at any moment

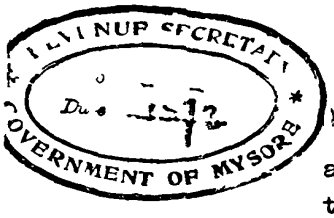
OFFICE OF THE CHIEF ENGINEER FOR IRRIGATION BANGALORE -

To

The Secretary to Government,
Revenue Department, Bangalore

Sir,



Subject - Installing a duplicate oil engine for Konanur Water Works

I have the honour to forward herewith, an estimate amounting to Rs 4,725/- for the above work, received from the Sanitary Engineer

2 The estimate for the work has duly been countersigned by the President, Municipal Council, Konanur, but, a resolution has been passed on 30th December 1946 by the Municipal Council (enclosed herewith) that the cost of the work should be borne by Government out of Water Supply grants for the year 1946-47 on account of their slender resources

3 I request you therefore to be so good as to obtain the sanction of Government to the estimate and to the allotment of funds to the extent of Rs 4,725/- required for the work referred to above and communicate the same, at an early date

I have the honour to be,
Sir,
Your most obedient servant

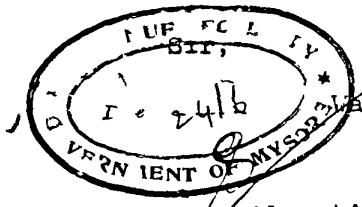
Office of the Chief Engineer for Irrigation in Mysore, Bangalore

23/6/47

To

The Secretary to Government,
Revenue Department, Bangalore



Sir,

Water Supply to Konanur Town, Arkalgud Taluk, Hassan District

---

5.1.47

Adverting to your letter No L 10751 dated 31-1-1947, on the above subject I have the honour to state that it has been reported by the Sanitary Engineer that the condition of the present disel oil engine is not satisfactory and thus has not been possible to ensure proper water supply to the town As the working of the engine has been sluggish, it is not possible to subject it to extra load for working the pressure filter and therefore, the Jewell Filter at the place has been put out of action The water is being chlorinated to rake it potable for domestic purposes

2 To obviate the water scarcity in the town, it is necessary to instal a new diesel oil engine An estimate amounting to Rs 4,725/- for the purpose has been forwarded to you with this office letter No 1918/S dated 14-3-1947 The same may kindly be returned with the sanction of Government thereto and the requisite funds allotted

A

3 To avoid a breakdown in the water supply to the town on account of the precarious condition of the present diesel oil engine, the Sanitary Engineer has proposed to instal a kerosene oil engine as a temporary measure at a cost of Rs 800/- pending receipt of funds from the Municipality The action has been approved by me as a measure of safety

I have the honour to be,
Sir,
Your most obedient servant,

To
The Secretary to Government,
Revenue Department, Bangalore

Sir,

Re the installation of a duplicate oil engine for Konanur water works

---

With reference to your leter No L 13731 dated 9-4-47 calling for certain information re the financial condition of the Konanur Municipal ity I have the honor to state as follows - &c

Konanur is a minor Municipal Council and its normal income and expenditure are R. 10,320/- and R9,648/- respectively The balance remaining is hardly sufficient to undertake any improvement work The Municipal Council has to pay arrears of water maintenance charges to the extent of about R25,000/- and contribution towards combined dispensary to the extent of R.5,015-14-0 Besides a Municipal High School has been sanctioned to this place from 46-47 and the Municipality has to meet the maintenance charges of the High School Necessary amenities have to be provided to the rate payers of the Town but the Municipality is not in a position to find funds for all such purposes on account of their slender resources The Municipal Council have levied octroi on certain additional items from the year 46-47 and further proposals to increase their income are under correspondence

The Sanitary Engineer has intimated that the population of Konanur Tow is 3000, that at 10 gallons of water per head per day the daily requirement would be R 30,000 gallons The existing engine is said to be working since the last 10 years It is reported that it has been repaired a number of times and its break down is imminent and that a duplicate engine is absolutely necessary for supplying the required quantity of water The estimate has been prepared by the Sanitary Department as this was found to be very urgent The report to accompany the estimate is enclosed for favour of perusal The supply of drinking water to the Town is an important necessity and also an obligatory duty of the Municipal Council As the Municipa Council cannot afford to meet the cost of R 4725/- for purchasing a duplicate oil engine Government help is necessary as otherwise the public will have to suffer without water in case the old engine were to breakdown ~~suddenly~~ suddenly

In the above circumstances I request that a grant of R 4725/- for purchasing a duplicate oil engine may kindly be sanctioned by Govt early as the Sanitary Engineer is demanding payment of this amount

I have the honor to be,
Sir,
Your most obedient servant,
Ma Ba Sta
for Deputy Commissioner,
Hassan District
